The Explanatory Statement for item no. 1 set out in the accompanying Notice hereinabove is as under.

ITEM NO. 1

The present authorised share capital of the Company is Rs.4,150,000,000 (Rupees Four Thousand One Hundred Fifty Million) divided into 415,000,000 (Four Hundred Fifteen Million) equity shares of Rs.10 each. With a view to facilitate infusion of fresh share capital in the Company, it is necessary to increase the authorised share capital to Rs.5,000,000,000 (Rupees Five Thousand Million) divided into 500,000,000 (Five Hundred Million) equity shares of Rs.10 each. It is therefore proposed to increase the authorised shares capital of the Company from Rs.4,150,000,000 (Rupees Four Thousand One Hundred Fifty Million) divided into 415,000,000 (Four Hundred Fifteen Million) equity shares of Rs.10 each to 5,000,000,000 (Rupees Five Thousand Million) divided into 500,000,000 (Five Hundred Million) divided into 415,000,000 (Four Hundred Fifteen Million) equity shares of Rs.10 each.

The Directors recommend the resolution for your approval.

None of the Directors of the Company is in any way concerned or interested in the resolution except to the extent that new equity shares may be allotted to them as per terms of offer for allotment of these shares.

Explanations to various comments made by the Auditors in their Report to the shareholders are mentioned in the Notes to the Accounts, which forms part of the Balance Sheet for the year ended March 31, 2010.

2. Business

The Company completed its fifth year of operations on May 23, 2010. In fifth year of operations, the Company focused on consolidating its operations on key routes and maintained its fleet size to twenty aircraft covering 19 destinations and operating 122 flights daily.

During the year ended March 2010, the Company carried 6.63 million passengers. Further, the average load factor of 77.6% was recorded, with a market share of over 12% for the month of March 2010. The Company also improved its average deployed fleet to 18.82 aircraft versus 17.02 aircraft for previous year.

Your Company also focused on processes to generate ancillary revenues which effectively offset cost of operations. The Company has managed to improve the operating revenue per ASKM to Rs.2.49 from Rs.2.34 in previous year.

3. Share Capital

During the year under review, the paid-up share capital of the Company was increased by 862,550 equity share consequent upon exercise of stock options under the Employee Stock Option Scheme 2007.

Post closure of the year under review, the Company allotted 15,360,715 equity shares of Rs.10 each at a price of Rs.39.46 per equity share consequent upon conversion of 15,360,715 warrants in terms of approvals accorded by the shareholders and FIPB.

Further, the Company allotted 127,843,840 equity shares of Rs.10 each at a price of Rs.25 per equity share consequent upon conversion of 693 Foreign Currency Convertible Bonds of US\$ 100,000 each aggregating to US\$ 69,300,000.

In view of above capitalization the net worth of the Company has now become positive.

4. Other Material Developments

(a) Royal Holdings Services Limited, the Promoter of the Company and certain other shareholders of the Company executed Share Purchase Agreements dated June 12, 2010 (SPA) with Mr. Kalanithi Maran and KAL Airways Private Limited (the "Acquirers") whereby the Acquirers have agreed to acquire 37.73% of the fully diluted equity share capital of the Company and consequently acquire management and control of the Company.

Consequently, the Acquirers have also made an open offer under Regulation 10 and 12 of the SEBI (Substantial Acquisition of Shares and Takeover) Regulations, 1997 to the public shareholders of the Company to acquire up to an additional 82,980,161 equity shares, representing 20% of the fully diluted equity share capital of the Company. Post completion of open offer, the Acquirers may hold upto 57.73% of the fully diluted equity capital of the Company.

Mr. Kalanithi Maran, the promoter of Sun Network is also the Chairman and Managing Director of the Sun TV Network Limited (Sun TV). Sun TV is a public Limited Company listed at the Mumbai and National Stock Exchanges and has a market cap of about Rs.16,750 crores (USD 3.6 billion). Mr. Maran has also other interests in the Media and Entertainment world and owns majority stake in Sun Direct TV Private Limited that has emerged as the fastest growing DTH player in the country with a subscriber base of about 5.5 million subscribers in a short span of 2 ½ years. He also runs the No.1 Tamil Daily, Dinakaran selling over 1.2 million copies every day. Mr. Maran is also the promoter of Kal Airways Private Limited.

(b) Reference note no.2.2 of the Notes to the Accounts (Schedule XVIII) forming part of the financial statement for the year under review. The Review Petition filed by Hindustan Development Corporation Limited ("HDCL") (now renamed as Mallanpur Steels Limited) against the Scheme of Settlement of the Company, has been dismissed by the Delhi High Court on July 16, 2010

5. Dividend

In view of accumulated losses brought forward, your Directors do not recommend any dividend.

6. Directors

Mr. Atul Sharma and Mr. Ajay Singh retire by rotation in the forthcoming Annual General Meeting and they do not seek reappointment. The Company has decided not to fill the vacancy, for the time being, caused by their retirement.

Mr. Tom Ronell ceased to be nominee director on the Board of the Company with effect from February 5, 2010 consequent upon sale of entire equity stake by Istithmar PJSC.

7. Personnel

MANAGEMENT DISCUSSION AND ANALYSIS

1. INDUSTRY STRUCTURE AND DEVELOPMENTS

1.1 Global and Indian Economy

The economy grew at 7.2 percent in 2009-10, on the back of an 8.2 percent growth in the industrial and an 8.7 percent growth in the service sectors, despite decline in agricultural output. Per Capita income grew by 5.3 percent in 2009-10.

The macro-economic fundamentals were positive inspiring a general confidence about the medium to long term prospects amidst uncertainty in the global economy.

GDP growth is expected to be at around 8.5 percent in 2010-11 with a full recovery and in excess of 9 percent in 2011-12. There is a historically established correlation between economic growth and growth in air traffic – it has been observed that aviation grows at the rate of 1.2 to 1.8 times the GDP – 1.2 times in developed nations and 1.8 times in developing countries with pent up demand. Assuming a very conservative 6% GDP growth and a 1.5 times multiple, it is estimated that domestic aviation traffic alone will grow 2.5 times from the current 40 million passengers to 100 million passengers by 2020.

1.2 Indian Aviation Industry

Domestic passenger traffic grew by 16.5% during FY 2009-10 over the previous year heralding the return of passenger demand for the domestic aviation industry. This growth was despite a weak first quarter which saw domestic traffic continuing the declining trend of FY 2008-09 with a 5% decline in passenger numbers.

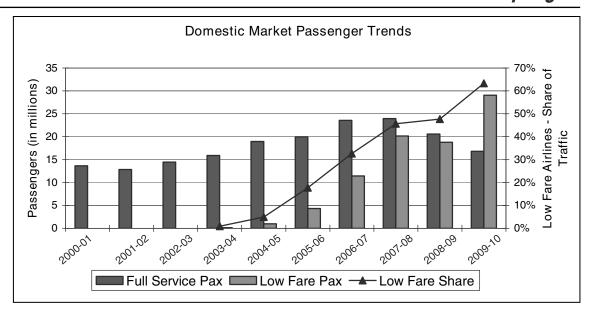

The month of May 2009 witnessed a major strategic shift in the domestic industry with the introduction of the Low-Fare service 'Jet Konnect' by Jet Airways. By end of FY 2009-10, the Jet Konnect service was more than two-thirds of the seats deployed by Jet Airways. A similar shift of capacity from Kingfisher to Kingfisher Red was seen during this period with Kingfisher Red service accounting for more than two-thirds of the seat capacity deployed by the airline.

The introduction of the low-fare 'Jet Konnect' service signaled the start of a fierce fare war in the July-September quarter. However, the robust demand in the peak season starting October saw the fares stabilizing at comfortable levels that helped SpiceJet post consecutive profitable quarterly performance in the last two quarters of the financial year.

These large-scale capacity conversions from Premium service to Low-Fare offerings seemed to vindicate the low-fare business model adopted by SpiceJet. By the end of FY 2009-10, it is estimated that more than two-thirds of the capacity deployed in the domestic market was a low-cost and low-fare offering.

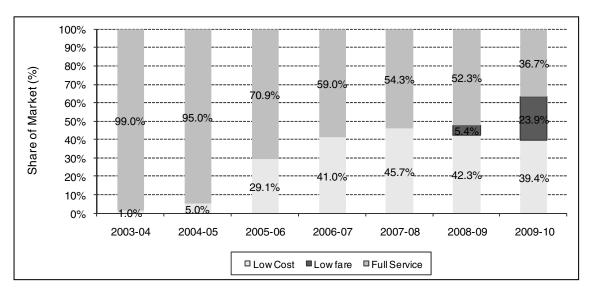

Despite the conversion to more low-fare offerings, the domestic growth was largely driven by the low-cost carriers with SpiceJet showing a 44% growth in passengers carried ahead of Indigo's growth of 33%.

The share of low-cost carriers in the domestic traffic continued to increase during FY 2009-10 and by end of the financial year nearly 70% of all domestic traffic was carried by low-cost carriers or the low-fare services of the full-service carriers.

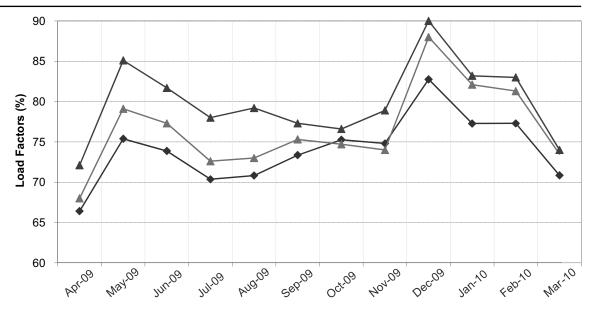

1.3 Domestic Market Trends

Driven by the large-scale capacity conversion of Premium Service aircraft to Low Fare service by two large competitors, the share of Low Cost and Low Fare traffic over-took the Premium Service traffic for the 1st time in the domestic aviation sector.

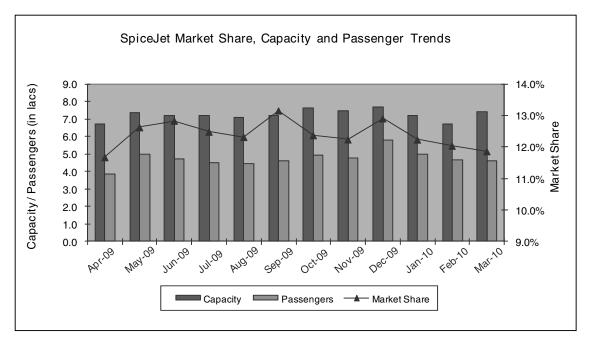

The above trend of a shift from Premium Service to Low Cost and Low Fare was also driven by an increasing acceptance of price-driven travel by Corporate and Business travelers. SpiceJet's corporate business during FY2009-10 grew at a very fast clip and contributed to more than 13% of revenues, up from less than 5% a year ago. More than 1000 corporate houses now fly regularly on SpiceJet.

Competitively, SpiceJet increased the gap in Load Factor from the Industry and reduced the gap with their closest competitor, Indigo. Based on the trends of the last 6 months of FY 2009-10, SpiceJet carried 8 more passengers per departure as compared to Indigo.

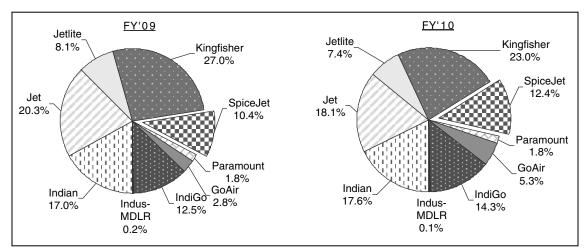

SpiceJet increased its market share during FY 2009-10 to 12.4% from 10.4% in the previous financial year. Increasing aircraft utilization contributed to achieving a higher market share by ensuring that SpiceJet operated more flights without any increase in the number of aircraft. The number of daily flights increased from 115 in the last quarter of FY 2008-09 to 119 in April 2009 and to 125 in May 2009 and to 129 from November 2009 on the same fleet size of 19 aircraft.

In fact, during FY 2009-10, the only market-share gainers in the domestic market were the Low Cost Airlines – GoAir gaining 2.4 points to 5.3% share and Indigo gaining 1.8 points to reach a 14.3% share while SpiceJet gained 2.0 points to reach an annual market share of 12.4%.

1.4 Domestic Demand-Supply Scenario

While domestic demand grew during FY 2009-10 by 16.5% over the previous year, the supply growth has been at a more conservative pace resulting in the demand-supply gap in the industry narrowing.

Industry capacity during the financial year grew at a very modest 4% from an average of 1.74 lacs seats per day to 1.82 lacs seats per day.

The narrowing demand-supply gap combined with the robust demand that the industry experienced during the last 9 months of FY 2009-10 ensured that yields quickly recovered from the lows of the July-September '09 period and stabilized at reasonably comfortable levels resulting in a profitable financial performance for the airline in the 2nd half of the year and also on an annualized basis.

1.5 Service improvement

At SpiceJet, the customer continues to be the core of the business and all attempts were made to ensure the highest level of customer satisfaction. Based on customer feedback, SpiceJet implemented the following initiatives during FY 2009-10:

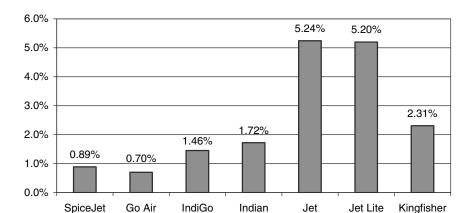

- New menu comprising of hot Indian delicacies
- Pre-ordering refreshment at the time of booking at a discount
- Revamped in-flight magazine
- SpiceJet Privilege Pass programme wherein passengers could use the SpiceJet boarding pass and gain great value offerings from hotels, online retail, insurance and wellness partners.
- Roving check-in facility at airports
- In-flight music while boarding and deplaning composed in-house
- Gift bags for kids on board

As recognition of these service improvements, SpiceJet has received several awards and recognitions during this year, prominent amongst them being:

- India's best low-fare airline in a survey conducted by MaRS on behalf of Hindustan Times (Dec 2009)
- Smart Travel Asia's Top 10 Best Budget Airlines in Asia for two consecutive years (Aug 2008 & Sept 2009)
- World Travel Market Award for multi-channel approach in distribution (Nov 2009)
- Employer Branding Institutes' Best Employer Brand Award for our employee best practices (Dec 2009)
- Award for Best Website at the 'World Low Cost Airlines Asia Pacific Conference' at Singapore (Jan 2010)
- Outlook Traveler's Best Low Cost Airline (Feb 2008 & Feb 2010) India
- Class of Travel and Tourism's 'Best Domestic Low Cost Airline' award (Mar 2010)

1.6 On-Time Performance & Cancellations

The airline continues to focus all efforts on ensuring that SpiceJet maintains a healthy On-Time Performance track record. Flight cancellations are a key measure of on-time performance and SpiceJet has one of the lowest cancellation rates amongst domestic airlines. The chart below gives the average cancellation rate of SpiceJet versus peers:

Airlines

Airways

Flight Cancellations (July '09 - March '10)

In 2009-10, SpiceJet reported a healthy on-time performance of 78.8% - ahead of most of its competitors. Constant efforts are on to improve the on time performance.

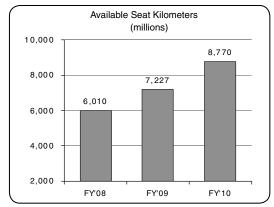

1.7 Branding

SpiceJet was conceptualized as an airline that will always provide safe, value-for-money, comfortable and hassle-free air travel. The brand challenge was to connect and position SpiceJet as a brand that offers more than others in its competitive set. Brand stimuli employed during the year included advertising through print, outdoor and television media and the campaign to establish 'Get More When You Fly SpiceJet' was carried out.

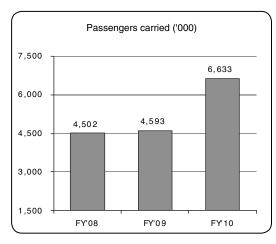

The campaign has been received very well and evidence of this lies in the overall growth of 'direct' business on www.spicejet.com. In pre and post campaign analysis, the brand has fared very well on key parameters such as top-of-mind and total recall, imagery and other key attributes.

2. OPERATIONAL & FINANCIAL HIGHLIGHTS

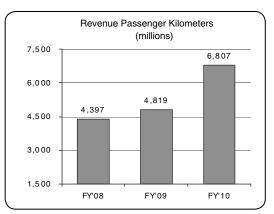

2.1 Operational Highlights

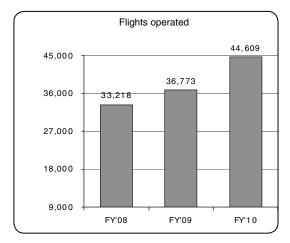

ASKs increased by 21% driven by an increase in aircraft utilization and an increase in operations.

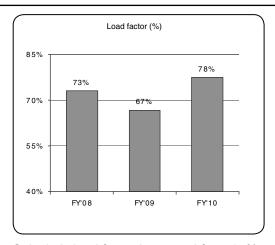

Passengers carried increased by 44% against the industry growth of 16.5% reflecting greater traction for the SpiceJet business model.

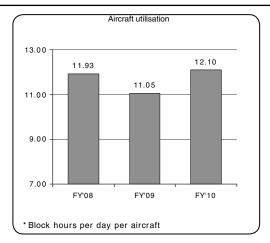

RPKs increased by 41% on the back of higher average load factors driven by a revival in domestic travel.

During the year FY'10, capacity deployment increased by 21%. This is due to increase in average aircraft availability and increase in aircraft utilization.

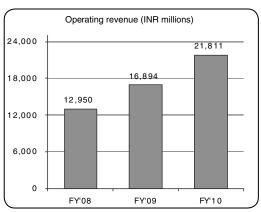

Spicejet's load factor increased from 67% in FY'09 to 78% in FY'10.

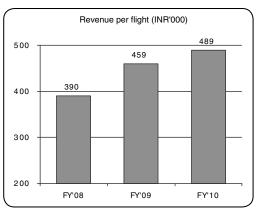

Average aircraft utilisation improved by more than 1 hour.

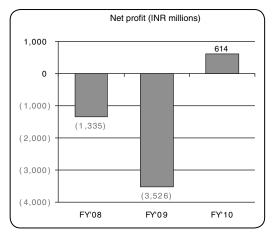

2.2 Financial Highlights

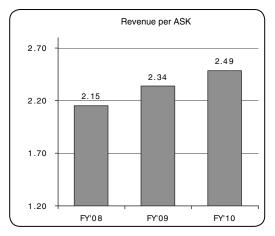

Increase in operations and passenger traffic drove a 29% increase in operating revenues.

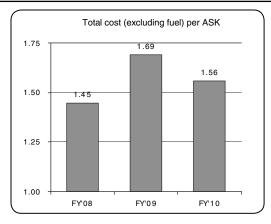

An increase of 6% in revenue per flight can be attributed to load factor improvements.

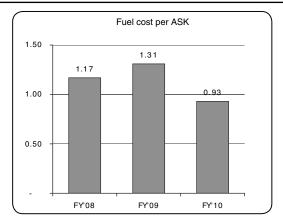

Despite a challenging competitive environment, esp. during the first half of the year, SpiceJet registered profits for three quarters of FY'10.

The combined effect of higher load factor and increase in flights resulted in an increase in unit revenue per ASKM by 6% to INR 2.49.

Lower fuel prices compared to FY'09 resulted in an improvement in fuel cost by 29%.

2.2.1 Revenues:

SpiceJet's total revenues increased by 24% to Rs.22,421 million in FY 2009-10 from Rs.18,135 million in FY 2008-2009.

Operating revenues increased by 29% to Rs. 21,811 million in FY 2009-10 from Rs.16,894 million in FY 2008-09. This increase was primarily due to increase in capacity utilization.

Revenue from carriage of cargo increased by 76% to Rs.1,077 million in FY 2009-10 from Rs. 611 million in FY 2008-09.

Other revenues during FY 2009-10 decreased by 51% to Rs. 610 million from Rs.1,240 million due to lower income from sale and lease back.

2.2.2 Expenses:

Total operating expenses for FY 2009-10 decreased by 1% to Rs.16,939 million from Rs.17,034 million in FY 2008-09.

| Operating Expense | FY'10 (Rs. in mn) | FY'09 (Rs. in mn) | Variance |
|-----------------------------------------------|----------------------|----------------------|----------|
| Aircraft fuel and oil | 8,142.18 | 9,451.94 | -14% |
| Lease rental-aircraft, rotable and engines | 3,983.19 | 3,704.87 | 8% |
| Aircraft maintenance cost | 2,324.04 | 1,849.45 | 26% |
| Aviation insurance | 164.51 | 139.38 | 18% |
| Landing, navigation and other airport charges | 1,447.72 | 1,114.23 | 30% |
| Inflight and other passenger amenities | 259.85 | 136.52 | 90% |
| Operating software charges | 183.93 | 141.99 | 30% |
| Other operating expenses | 434.14 | 495.93 | -12% |

2.2.2.a Aircraft Fuel & Oil

Expenditure on aircraft fuel decreased by 14% to Rs.8,142 million in FY 2009-10 from Rs.9,451 million in FY 2008-09. This decrease is mainly due to decrease in average price of aviation turbine fuel.

2.2.2.b Lease Rental Aircraft

Expenditure on aircraft lease rental increased by 8% to Rs.3,983 million in FY 2009-10 from Rs.3,704 million in FY 2008-09, this increase in mainly due to increase in the lease rentals of engines.

2.2.2.c Aircraft Maintenance Cost

Expenditure on aircraft maintenance cost increased by 26%. The increase in maintenance and repair costs in FY 2009-10 was essentially due to increase in operations and increase in USD exchange rate.

2.2.2.d Other Operating Expenses

Other operational expenses increased by 23%. The increase in landing, navigation, other airport charges, in flight and other passenger amenities and other operating costs was primarily due to the increase in the rates by authorities, increase in the number of flights operated as well as increase in number in passengers compared to the previous year.

2.2.2.e Employee Remuneration and Benefits

Expenses with regard to employee remuneration and benefits increased by 17% to Rs.1,814 million in FY 2009-10 from Rs.1,548 million in FY 2008-09.

2.2.2.f Selling and Distribution Costs

Selling and distribution costs increased by 75% to Rs.1,922 million for FY 2009-10 from Rs.1,096 million for FY 2008-09. This increase was mainly due to investments done in brand building and increase in number in passengers compared to the previous year.

2.2.2.g Administrative Expenses

Administrative expense decreased by 42%, this decrease was mainly due to savings in legal, professional and consultancy charges and exchange fluctuation.

2.2.2.h Finance Charges

Finance Charges have decreased during the Fiscal year 2010 by 29% from Rs.160 million to Rs.114 million.

2.2.2.i Depreciation

Depreciation increased by 5 % to Rs.76 million in FY 2009-10 from Rs.73 million in FY 2008-09.

3. OPPORTUNITY AND OUTLOOK

The Indian aviation industry is one of the fastest-growing in the world with private airlines accounting for more than 80 per cent of the domestic aviation market. With a compounded annual growth rate (CAGR) of 18 per cent over the last 5 years, upgraded airport infrastructure at the 4 important metro cities of Delhi, Mumbai, Hyderabad and Bangalore and more investments underway to upgrade Chennai and Kolkata apart from 13 non-metro airports, the domestic aviation sector is poised to continue the growth momentum.

3.1 Potential for Growth

The Indian Civil Aviation market grew at a compound annual growth rate (CAGR) of 18 per cent during the last 5 years.

Passengers carried by domestic airlines during the 4th quarter of FY 2009-10 stood at 11.85 million as against 9.82 million in the corresponding period of 2009 – a growth of 20.6 per cent, according to the traffic data available with the Directorate General of Civil Aviation (DGCA). With the economy recovering from the lows of 2008 & 2009, a sustained annual growth in the 15-16% range can be expected for the next 2-3 years.

This growth hinges on the availability of adequate airport infrastructure to support this pace of expansion. On this front, the Airports Authority of India (AAI) is set to spend over US\$ 1.02 billion in 2010, towards modernisation of non-metro airports. AAI is also planning the city-side development of 24 airports, including those at Ahmedabad and Amritsar. Additionally, 11 new greenfield airports have been identified to reduce passenger load on existing airports. With infrastructure expansion expected to keep pace with the traffic growth (except for Mumbai), the future definitely does look bright.

3.2 Road Ahead

A report from the **Centre for Asia Pacific Aviation** (CAPA), forecasts that by 2020 Indian domestic air traffic will reach 160-180 million passengers per annum and international traffic will exceed 80 million. Today less than 2% of Indians fly in any given year.

In forecasting substantial growth over the next ten years, the report notes that India's domestic air travel market is currently just 20% that of China. In order to meet predicted growth over the next ten years airlines will need to invest \$120 billion in new aircraft and a further \$20 billion in the airport sector.

The Indian aviation sector is likely to see clearer skies ahead in the years to come.

- The Vision 2020 statement announced by the Ministry of Civil Aviation, envisages creating infrastructure to handle 280 million passengers by 2020.
- Investment opportunities of US\$ 110 billion envisaged up to 2020 with US\$ 80 billion in new aircraft and US\$ 30 billion in development of airport infrastructure.
- Associated areas such as maintenance repair and overhaul (MRO) and training offer high
 investment potential. A report by Ernst & Young says the MRO category in the aviation sector
 can absorb up to US\$ 120 billion worth of investments by 2020.

4. FUTURE OUTLOOK FOR SPICEJET

SpiceJet is the only listed airline in India to declare an annual profit. In its five years of operations, the company's practices have become industry benchmarks for best cost management, aircraft utilization, service quality and brand image.

There is every reason to be optimistic about FY 2010-11. Besides excellent flight loads in the first quarter, demand outlook for the traditionally low July-August-September quarter looks encouraging. The higher brand salience and improved brand image attributes have resulted in SpiceJet becoming a brand of choice carrying more passengers per departure than any other carrier in India.

spiceJet

With the planned induction of 7 new aircraft in 2010-11, the Company will continue to plug the gaps in its current domestic network and increase frequency on high potential routes. As the first low cost airline gaining the stature to fly international, SpiceJet is evaluating international destinations in the SAARC region and looks forward to even better utilization of its aircraft and increased revenues.

SpiceJet is confident that the airline will make a difference to our customers, excite our employees to do more with less, turn our vendors into our partners and create value for our investors.

Crude oil prices and demand will continue to determine the financial situation of the industry. Other key challenges include the weakness of the Rupee versus the US dollar (30% of airline costing is incurred in US dollars), the outsourcing policies in India, airport fees and airport/airspace congestion.

5. ROLE OF THE GOVERNMENT

The airline industry continues to look for support from the government to ensure that the domestic industry is structurally stable and the domestic airlines are globally competitive.

Some of the specific thoughts being discussed and proposed are:

- i. To extend support to the industry by classifying ATF as 'declared goods' which will bring about a reduction in Sales Tax rates from the current levels of around 24-25%.
- ii. Tax exemptions from fringe benefit tax, service tax on input/ output services, customs/excise duty on ATF/ other spares can help make Indian carriers more cost competitive as they look to spread their wings.
- iii. Infrastructure development is critical to the growth of the industry. However, this should lead to lowering of costs for the airlines.
- iv. A favourable outsourcing policy is critical to ensure cost competitiveness of the Indian carriers. The proposed Ground Handling Policy should be recalled as it will result in loss of jobs, add to the cost for the airlines and create inefficiencies.
- v. Increasing the FDI limits for the sector will allow funds and expertise to come into India and allow the aviation industry to mature and be more competitive.

AUDITOR'S REPORT

To,

The Members of SpiceJet Limited

- 1. We have audited the attached Balance Sheet of **SpiceJet Limited**, (the 'Company') as at March 31, 2010, and also the Profit and Loss Account and the Cash Flow Statement for the year ended on that date annexed thereto (collectively referred as the 'financial statements'). These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.
- We conducted our audit in accordance with the auditing standards generally accepted in India. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
- 3. As required by the Companies (Auditor's Report) Order, 2003 (the 'Order') (as amended), issued by the Central Government of India in terms of sub-section (4A) of section 227 of the Companies Act, 1956 (the 'Act'), we enclose in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.
- 4. Without qualifying our opinion, we draw attention to the Note 5 in the Schedule XVIII to the financial statements which indicate that the Company has suffered recurring losses from operations in the past. Although, the Company has earned a profit of Rs 614.49 million for the year ended March 31, 2010, without considering the impact of the matters mentioned in paragraph 5 below, amounting to Rs 74.71 million [Rs 62.01 million net of taxes], the Company's accumulated losses, as of that date, amounted to Rs 8,223.75 million, as against the Company's share capital and reserves of Rs 4,801.98 million. These conditions raise doubt about the Company's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 5. The accompanying financial statements do not include any adjustments that might result from the outcome of these uncertainties and also do not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amount and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.
- 5. As more fully explained in the note 2 of Schedule XVIII to the financial statements, the Company has not accrued interest in respect of outstanding inter corporate deposits of Rs.50 million which as at March 31, 2010 amounts to Rs 74.71 million.
 - Had this interest been accrued, the net profit after tax for the year would have been lower by Rs.62.01 million, accumulated losses as at March 31, 2010 would have been higher by Rs.62.01 million, current liabilities as at March 31, 2010 would have been higher by Rs.74.71 million and provisions as at March 31, 2010 would have been lower by Rs.12.70 million.
- 6. Further to our comments in the Annexure referred to above, we report that:
 - a. We have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
 - c. The financial statements dealt with by this report are in agreement with the books of account;

- d. On the basis of written representations received from the directors, as on March 31, 2010 and taken on record by the Board of Directors, we report that none of the directors is disqualified as on March 31, 2010 from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Act;
- e. Subject to our comments in paragraph 5 above, in our opinion and to the best of our information and according to the explanations given to us, the financial statements dealt with by this report comply with the accounting standards referred to in sub-section (3C) of section 211 of the Act and the Rules framed there under and give the information required by the Act, in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, in the case of:
 - i) the Balance Sheet, of the state of affairs of the Company as at March 31, 2010;
 - ii) the Profit and Loss Account, of the profit for the year ended on that date; and
 - iii) the Cash Flow Statement, of the cash flows for the year ended on that date.

Annexure to the Auditors' Report of even date to the members of SpiceJet Limited, on the financial statements for the year ended March 31, 2010

Based on the audit procedures performed for the purpose of reporting a true and fair view on the financial statements of the Company and taking into consideration the information and explanations given to us and the books of account and other records examined by us in the normal course of audit, we report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
 - (b) The fixed assets have been physically verified by the management during the year and no material discrepancies were noticed on such verification. In our opinion, the frequency of verification of the fixed assets is reasonable having regard to the size of the Company and the nature of its assets.
 - (c) In our opinion, a substantial part of fixed assets has not been disposed off during the year.
- (ii) (a) The inventory has been physically verified during the year by the management. In our opinion, the frequency of verification is reasonable.
 - (b) The procedures of physical verification of inventory followed by the management are reasonable and adequate in relation to the size of the Company and the nature of its business.
 - (c) The Company is maintaining proper records of inventory and no material discrepancies were noticed on physical verification.
- (iii) (a) The Company has not granted any loan, secured or unsecured to companies, firms or other parties covered in the register maintained under section 301 of the Act. Accordingly, the provisions of clauses 4(iii) (b) to (d) of the Order are not applicable.
 - (b) The Company has not taken any loans, secured or unsecured from companies, firms or other parties covered in the register maintained under section 301 of the Act. Accordingly, the provisions of clauses 4(iii) (f) and 4(iii)(g) of the Order are not applicable.
- (iv) In our opinion, there is an adequate internal control system commensurate with the size of the Company and the nature of its business for the purchase of inventory and fixed assets and for the sale of goods and services.
- (v) The Company has not entered into contracts or arrangements referred to in section 301 of the Act. Accordingly, the provisions of clause 4(v) of the Order are not applicable.
- (vi) The Company has not accepted any deposits from the public within the meaning of sections 58A and 58AA of the Act and the Companies (Acceptance of Deposits) Rules, 1975. Accordingly, the provisions of clause 4(vi) of the Order are not applicable.
- (vii) In our opinion, the Company has an internal audit system commensurate with its size and the nature of its business.
- (viii) To the best of our knowledge and belief, the Central Government has not prescribed maintenance of cost records under clause (d) of sub-section (1) of section 209 of the Act, in respect of the services rendered by the Company. Accordingly, the provisions of clause 4(viii) of the Order are not applicable.
- (ix) (a) Undisputed statutory dues including provident fund, investor education and protection fund, employees' state insurance, income-tax, sales-tax, wealth-tax, service-tax, custom duty, excise duty, cess and other material statutory dues, as applicable, have generally been regularly deposited with the appropriate authorities, though there has been a slight delay in a few cases. No undisputed amounts payable in respect thereof were outstanding at the year end for a period of more than six months from the date they became payable.
 - (b) The dues outstanding in respect of sales-tax, income-tax, custom duty, wealth-tax, excise duty, cess on account of any dispute, are as follows:

| Name of the statute | Nature of dues | Amount (Rs in million) | Period to which the amount relates | Forum where dispute is pending |
|-----------------------------|----------------------------------------------|------------------------|------------------------------------|--------------------------------|
| Indian Customs Act, 1962 | Penalty upon delay in payment of custom duty | 82.69 | March 1996 to August 1996 | Delhi High Court |

- (x) In our opinion, the Company's accumulated losses at the end of the financial year are more than fifty percent of its net worth. The Company has not incurred cash losses during the year. In the preceding financial year, the Company had incurred cash losses.
- (xi) In our opinion, the Company has not defaulted in repayment of dues to a financial institution or a bank or debenture holders during the year.
- (xii) The Company has not granted any loans and advances on the basis of security by way of pledge of shares, debentures and other securities. Accordingly, the provisions of clause 4(xii) of the Order are not applicable.
- (xiii) In our opinion, the Company is not a chit fund or a nidhi/ mutual benefit fund/ society. Accordingly, the provisions of clause 4(xiii) of the Order are not applicable.
- (xiv) In our opinion, the Company is not dealing in or trading in shares, securities, debentures and other investments. Accordingly, the provisions of clause 4(xiv) of the Order are not applicable.
- (xv) The Company has not given any guarantees for loans taken by others from banks or financial institutions. Accordingly, the provisions of clause 4(xv) of the Order are not applicable.
- (xvi) In our opinion, the Company has applied the term loans for the purpose for which the loans were obtained.
- (xvii) In our opinion, no funds raised on short-term basis have been used for long-term investment.
- (xviii) The Company has not made any preferential allotment of shares to parties or companies covered in the register maintained under section 301 of the Act. Accordingly, the provisions of clause 4(xviii) of the Order are not applicable.
- (xix) The Company has not created security in respect of Zero Coupon Foreign Currency Convertible Bonds outstanding during the year.

SCHEDULE XVII - SIGNIFICANT ACCOUNTING POLICIES

1. BASIS OF ACCOUNTING

The financial statements have been prepared to comply with the Accounting Standards referred to in the Companies (Accounting standards) Rules 2006 issued by the Central Government in exercise of the power conferred under sub-section (1) (a) of section 642 and the relevant provisions of the Companies Act, 1956 (the 'Act'). The financial statements have been prepared on a going concern basis under the historical cost convention on accrual basis. The accounting policies have been consistently applied by the Company unless otherwise stated.

2. USE OF ESTIMATES

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities on the date of the financial statements and the results of operations during the reporting periods. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from those estimates. Any revisions to accounting estimates are recognised in the current and future periods.

3. FIXED ASSETS

Tangible assets

Fixed Assets are carried at cost less depreciation and impairment loss, if any. The cost of fixed assets are inclusive of duties, taxes, interest on borrowings attributable to acquisition of fixed asset and other incidental costs incurred upto the time the assets are ready for their intended use. Spares which can be used only in connection with aircrafts and whose use is expected to be irregular are included in fixed assets at cost.

Advances paid towards the acquisition of fixed assets outstanding at each balance sheet date and the cost of fixed assets not ready for intended use before such date are disclosed under capital work-in-progress.

Intangible assets

Intangible assets comprises of software which is not an integral part of the related hardware. The cost of software comprises of acquisition charges and implementation fee.

4. DEPRECIATION AND AMORTISATION

Depreciation on fixed assets, other than on software classified as Intangible, is provided pro-rata on the straight line method, at the rates and in the manner prescribed under Schedule XIV of the Companies Act, 1956 or useful life of the asset whichever is shorter.

Intangible assets comprising of software is amortised over a period of 3 years based on estimated useful life as determined by the management.

5. IMPAIRMENT OF ASSETS

The Company reviews the carrying amounts of assets at each balance sheet date to ascertain if there is any indication of impairment. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount. After impairment, depreciation is provided on the revised carrying

spiceJet

amount of the asset over its remaining useful life. The impairment loss recognised in the prior accounting period is reversed if there is change in the estimate of the recoverable amount. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment.

6. INVESTMENTS

Long-term investments are stated at cost. Provision for diminution in the value of long-term investments is made only if such a decline is other than temporary in the opinion of the management. Current investments are carried at lower of cost or fair value. Cost for computation of profit or loss on sale of investment is computed on the basis of weighted average method.

7. INVENTORIES

Inventories comprises of expendable aircraft spares and miscellaneous stores.

Inventories have been valued at cost or net realizable value (NRV) whichever is lower after providing for obsolescence and other losses, where considered necessary. Cost includes customs duty, taxes, freight and other charges, as applicable and is determined using weighted average method.

8. REVENUE RECOGNITION

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue recognition policies in respect of some of the specific transactions are as under:

Passenger revenue

Passenger income is recognised when transportation is provided i.e. when the service is rendered. Amounts received pursuant to travel bookings/ reservations (net of cancellations) but not recognized as income is shown under current liabilities as unearned revenue.

Other operating revenues

Other operating revenues comprise of revenues from cargo operations and other miscellaneous fee charged from passengers.

Cargo revenue is recognized on completion of services i.e. when goods are transported.

Miscellaneous fees charged from passengers for reservation / changes in itinerary / cancellation of flight tickets, etc. are recognised as revenues on accrual basis.

Hiring of equipments

Income in respect of leasing/ renting out of equipments and spare parts is due on time proportion basis at rates agreed with the lessee. Due to significant uncertainties involved in realization, the income is recorded on settlement with the lessee or actual realization, whichever is earlier.

Interest

Interest income is recognised using time proportion method, based on the rate implicit in the transaction.

Dividend

Dividend income is recognised when Company's right to receive dividend is established.

9. LEASES

Operating lease payments are recognised as an expense in the profit and loss account on a straight line basis over the lease term.

Sale and lease back transaction

Profit or loss on sale and lease back arrangements resulting in operating leases are recognised, in case the transaction is established at fair value, else the excess over the fair value is deferred and amortized over the period for which the asset is expected to be used. Free of cost spare parts received in respect of purchase of air crafts are recorded at their fair value. This fair value is recorded as other income upon sale of air crafts.

10. FOREIGN EXCHANGE TRANSACTIONS

Transactions in foreign currency are accounted for at the exchange rate prevailing on the date of the transaction. All monetary items denominated in foreign currency are converted at the year-end rate.

The exchange differences arising on such conversion, except for conversion of long term monetary items, and exchange differences arising on the settlement of the transactions are dealt within the profit and loss account.

As per the amendment of the Companies (Accounting Standard) Rules, 2006-'AS 11' relating to 'The Effects of Changes in Foreign Exchange Rates' exchange difference arising on conversion of long term foreign currency monetary items is recorded under the head 'Foreign Currency Monetary Item Translation Difference Account' and is amortised over period not extending beyond, earlier of March 31, 2011 or maturity date of underlying long term foreign currency monetary items.

11. EMPLOYEE BENEFITS

Wages, salaries, bonuses, paid annual leave and sick leave are accrued in the year in which the associated services are rendered by employees of the Company. The un-availed leaves are allowed to be accumulated to be availed in next financial year and therefore, are considered as a short term benefit. Such accumulated leaves are provided in full on the basis of last drawn salary.

The Company provides Provident fund and Gratuity to its employees as post retirement benefits.

Provident fund benefit is a defined contribution plan under which the Company pays fixed contributions into a fund established under Employees Provident Fund and Miscellaneous Provision Act, 1953. The Company has no legal or constructive obligations to pay further contributions after payment of the fixed contribution. The contributions recognised in respect of defined contribution plans are expensed as they fall due. Liabilities and assets may be recognised if underpayment or prepayment has occurred and are included in current liabilities or current assets as they are normally of a short term nature.

The Company provides for gratuity, a defined benefit plan, which defines an amount of benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and remuneration. The legal obligation for any benefits from this kind of plan remains with the Company, even if plan assets for funding the defined benefit plan have been acquired. The liability recognised in the balance sheet for defined benefit plans is the present value of the defined benefit obligation ('DBO') at the balance sheet date less the fair value of plan assets, together with adjustments for unrecognised actuarial gains or losses and past service costs. The DBO is calculated annually by independent actuaries using the projected unit credit method.

12. EMPLOYEE STOCK OPTION PLAN

The Company values stock options granted to employees at excess of market price of the share on the date of grant over the exercise price of the options granted. The value of stock options granted is

spiceJet

amortised on a straight line basis over the vesting period as employee compensation and the unamortized portion carried as deferred employee compensation grouped under Reserves and Surplus.

13. AIRCRAFT MAINTENANCE COSTS AND ENGINE REPAIRS

Aircraft, Auxiliary Power Unit (APU) and Engine maintenance and repair costs are expensed as incurred except where such overhaul costs in respect of engines/ APU are covered by third party maintenance agreements, which are accounted in accordance therewith.

14. PROVISIONS AND CONTINGENCIES

Provision is recognised when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. Provisions are not discounted to present value and are determined based on best estimate required to settle the obligation on the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. A disclosure for a contingent liability is made when there is a present obligation that may, but probably will not, require an outflow of resources. Disclosure is also made in respect of a present obligation as a result of past event that probably requires an outflow of resource, where it is not possible to make a reliable estimate of the outflow. Where there is a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Contingent assets are not recognised in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs.

15. TAXATION

Provision for tax comprises current, deferred and fringe benefit tax. Current tax is provided for on the taxable profits of the year at applicable tax rates. Fringe benefit tax is provided for the amount expected to be paid to the Income tax authorities. Deferred income taxes reflect the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. Deferred tax assets are recognised on carry forward of unabsorbed depreciation and tax losses only if there is virtual certainty that such deferred tax assets can be realised against future taxable profits.

Minimum Alternative Tax credit ("MAT credit") is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in guidance note issued by the Institute of Chartered Accountants of India the said asset is created by way of a credit to the profit and loss account and shown as MAT credit entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal income tax during the specified period.

16. EARNINGS PER SHARE

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Partly paid equity shares are treated as a fraction of an equity share to the extent that they were entitled to participate in dividends relative to a fully paid equity share during the reporting period.

For the purpose of calculating diluted earnings per share, net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

17. ACCOUNTING FOR DERIVATIVE CONTRACTS

The Company enters into derivatives contract to hedge its risk arising from the fluctuation in commodity market. Gain or loss on settlement of such contracts is recorded as Operating cost. At every period end all outstanding derivative contracts are fair valued on a marked-to market basis and any loss on valuation is recognised in the profit and loss account, on each contract basis. Any gain on marked-to-market valuation on respective contracts is not recognized by the Company, keeping in view the principle of prudence as enunciated in AS 1, 'Disclosure of Accounting Policies'. Any subsequent changes in fair values, occurring after the balance sheet date, is accounted in the subsequent period.

SCHEDULE XVIII - NOTES TO THE FINANCIAL STATEMENTS

| | Though there is no demand for payment of tax arising out of above assessments, the Assessing Officer (AO) has initiated penalty proceedings against the Company under section 271(1)(c). Penalty amount is not ascertainable as AO has not raised any demand. | | |

2. Legal proceeding by and/ or against the Company

- 2.1 Under a suit filed by Leela Capital (petitioner) for recovery of the Inter Corporate Deposit ("ICD") aggregating to Rs. 50 million, the Company had deposited the amount of Rs. 50 million on November 30, 2001 with the Bombay High Court and the Hon'ble Bombay High Court later allowed the petitioner to withdraw the said amount, upon furnishing an undertaking that the petitioner will restitute the said sum or such part thereof, with 9% interest, to the Company, if and as directed by the Court at the time of the final decision of the suit filed by the petitioner. Accordingly, pending finality of the matter, both the ICD and deposit with High Court have been disclosed under the Unsecured Loans and Loans and Advances, respectively. The Company has not accrued interest payable of Rs. 74.71 million upto the date of deposit of the amount with the court on account of its defence in the court proceedings.
- 2.2 In another case, M/s Hindustan Development Corporation Limited ("HDCL") (now renamed as Mallanpur Steels Limited) who had lent Rs. 50 million ICD to the Company, has filed a Review Petition against the Scheme of Settlement passed by the Delhi High Court wherein its liability was settled at Rs. 35 million. The Company had made a deposit of Rs. 35 million in accordance with approved Scheme to the Official Administrator of the Scheme. The review petition is yet to be decided.

3. Estimated amount of Contracts remaining to be executed on Capital Account and not provided for (net of advances) Rs. 25,869.45 million (Previous year Rs. 36,635.18 million).

4. Settlement of litigation with S. K. Modi Group

The Company entered into a Memorandum of Settlement (MoS) on November 26, 2008 with its erstwhile promoter S K Modi Group to settle various ongoing litigations with them. This settlement was approved by the Hon'ble High Court of Delhi on January 16, 2009.

In terms of the MoS, S. K. Modi group surrendered 8 million shares of the Company in their name, under a trust for the benefit of the Company whereby the Company was given the right to authorize sale of shares at the most opportune time and receive sale proceeds. For this purpose, a trustee was appointed on June 9, 2009.

During the previous year ended March 31, 2009, the above mentioned right in the 8 million shares were recorded in the books under the head "Other current assets" at the rate of Rs.13.5 per share amounting to Rs.108 million.

During the year ended March 31, 2010, the Company has sold the aforesaid shares and has earned a profit of Rs.113.49 million (net of brokerage) on this transaction. Profit on sale of these shares is included in "Other income" in profit and loss account.

5. The Company's accumulated losses stand at Rs.8,223.75 million which have completely eroded the net worth of the Company as at March 31, 2010. These losses are due to a variety of factors in past.

The management expects improvement in the business results in the year ended March 31, 2010 to continue in the foreseeable future primarily due to improvement in the general economic environment, stabilization of fuel prices and rationalization of capacity in the airline industry.

With improvement in results of operations, the management is of the opinion that the likelihood of the FCCB holders seeking conversion into equity shares instead of redemption and warrant holders exercising their option to apply for equity shares has improved.

The financial statements have, therefore, been prepared on going concern basis.

6. Share Warrants

The Company on December 12, 2008 allotted 15,360,715 warrants, having an option to apply for and be allotted equivalent number of equity shares of Rs.10 each at a price of Rs.39.46 per share to GS Investment Partners (Mauritius) I Limited. The Company received Rs.60.61 million (i.e.10% of the total investment value) towards subscription of warrants. The above said warrants can be converted into equity shares till June 11, 2010. In case of non-exercise of conversion right, the warrants shall automatically get extinguished and money paid towards subscription of warrants shall stand forfeited.

7. Secured loans

The Company has taken secured term loans from Allahabad Bank, Industrial Finance Branch, Mumbai of which total balance outstanding as at March 31, 2010 is Rs.339.89 million (Previous year Rs.300 million). These loans are secured by a pledge on fixed deposit of Rs.300 million held with the same branch and hypothecation of assets worth Rs.39.89 million.

8. Zero Coupon Foreign Currency Convertible Bonds (FCCBs)

(a) During the year ended May 31, 2006, the Company issued 800 FCCBs with face value of USD 100,000 aggregating to USD 80 million. The FCCBs are convertible into equity shares at a conversion price of Rs.25 per equity share at a fixed exchange rate of Rs. 46.12 to USD 1 till November 11, 2010. The conversion price is subject to certain adjustments. Unless previously converted, redeemed or purchased and cancelled, the Company will redeem these bonds at 140.499 percent of the principal

spiceJet

amount on December 13, 2010. Also, the Company has deposited USD 500,000 with the Security Trustee for administrative purposes. These FCCBs are listed on Luxemburg Stock Exchange.

During the financial year ended March 31, 2009, 2 FCCBs were converted into equity shares.

(b) Premium on redemption of Zero Coupon Foreign Currency Convertible Bonds (FCCBs):

(Rs. in Millions)

| | March 31, 2010 | March 31, 2009 |
|------------------------------------------------------------------------------|----------------|----------------|
| Opening balance | 1149.96 | 607.71 |

| c) | Net actuarial loss recognized | (2.38) | (2.45) |
| d) | Expenses recognized in the statement of profit and loss | 7.18 | 9.47 |

b. Provident fund

The Company makes contribution to statutory provident fund in accordance with Employees Provident Fund and Miscellaneous Provision Act, 1952. This is post employment benefit and is in the nature of defined contribution plan. Contribution made by the Company during the year is Rs.54.77 million (Previous year Rs.45.95 million).

10. Recoverability of unexpired unabsorbed depreciation and carry forward losses and Minimum Alternate Tax

a. **Deferred tax**

In accordance with Accounting Standard 22 "Accounting for taxes on income" of the Companies (Accounting standards) Rules, 2006, in view of substantial losses incurred by the Company during the last years and large amount of unexpired unabsorbed depreciation and carry forward losses under the Income Tax Act, 1961, deferred tax assets on carried-forward losses and unabsorbed depreciation and have not been accounted for in the books, since it is not virtually certain whether the Company will be able to utilize such losses/ depreciation.

b. Minimum Alternate Tax (MAT)

During the year ended March 31, 2010, the Company has paid tax under MAT provisions of Income Tax Act, 1961, which the Company can claim in the subsequent year(s) (upto a certain time limit) in which tax is payable under normal provision of Income tax Act, 1961. However, in view of the substantial unexpired unabsorbed losses and depreciation available to the Company, an asset for this entitlement has not been recorded in the financial statements.

11. Accounting Standard 17 "Segment Reporting" of the Companies (Accounting standards) Rules, 2006 requires the Company to disclose certain information about operating segments. The Company is managed as a single operating unit that provides air transportation only and therefore, has only one reportable business segment. Further, the operations of the Company are limited within one geographical segment. Hence the disclosure required by this standard is presently not applicable to the Company.

12. Employee Stock Option Scheme, 2007

a) During the year ended March 31, 2008, the Company announced an Employee Stock option scheme (the "Scheme") for all the eligible employees of the Company. Under the Scheme, 6,016,250 equity shares have been earmarked to be granted under the Scheme and the same will vest as follows:

| Block I | Block II | Block III | Block IV |
|------------------------|------------------------|------------------------|------------------------|
| Year 1 | Year 2 | Year 3 | Year 4 |
| 35% of the total grant | 25% of the total grant | 25% of the total grant | 15% of the total grant |

Pursuant to the above Scheme, the employee will have the option to exercise the right within five years from the date of vesting of shares at Rs. 30 per share, being its exercise price. As per the Scheme, the Remuneration Committee has granted 5,200,000 options on September 11, 2007.

Following is the movement in outstanding stock options during the year ended March 31, 2010:

| Particulars | Stock options (numbers) | Weighted- average exercise prices (Rs.) | Weighted- average remaining contractual life (years) |

In accordance with intrinsic value approach provided under the guidance note, the Company has calculated the employee compensation cost using the Share Price quoted on BSE on the date of grant i.e. September 11, 2007.

b) During the year ended March 31, 2010 the Company has made two grants out of its Scheme, explained above, to its Chief Executive Officer, Mr. Sanjay Aggarwal. First grant of 1,804,884 options made on October 5, 2009 has a vesting period of 1 year from the date of grant. Vesting of second grant of 5,422,954 options made on December 23, 2009 will happen in nine equal installments with first vesting on December 23, 2010, second on January 20, 2011 and thereafter remaining seven at quarterly intervals. Half the options in the second grant will vest with each successive completion of employment and half of the options vests on achievement of certain performance targets defined in his employment agreement. For the purpose of accounting of these options, the management has assumed that performance targets defined in the employment agreement will be achieved and all options will vest to him accordingly.

Details of above options outstanding at the year end are as under:

| Particulars | Stock options (numbers) | Weighted- average exercise prices (Rs.) | Weighted-average remaining contractual life (years) |
|----------------------------------|-------------------------|--------------------------------------------------|--------------------------------------------------------------|
| Granted during the year | 7,227,838 | 10 | 6.67 |
| Forfeited during the year | - | - | - |
| Exercised during the year | - | - | - |
| Lapsed during the year | - | - | - |
| Outstanding as on March 31, 2010 | 7,227,838 | 10 | 6.35 |
| Exercisable as on March 31, 2010 | - | - | |

c) Had compensation cost been determined in a manner consistent with the fair value method, based on Black – Scholes model, the employees compensation cost would have been higher by Rs.11.52 million and proforma profit after tax would have been Rs. 604.93 million (lower by Rs. 9.56 million). On a proforma basis, the basic and diluted earnings per share would have been Rs. 2.51 and Rs.1.53 respectively.

The fair value of the options granted is determined on the date of the grant using the "Black-Scholes option pricing model" with the following assumptions:

| Assumptions | Grant Date | | | |
|-----------------------------|--------------------|-----------------|-------------------|--|
| | September 11, 2007 | October 5, 2009 | December 23, 2009 | |
| Dividend yield (%) | 0 | 0 | 0 | |
| Expected life (no of years) | 2.5 | 1 | 2.7 | |
| Risk free interest rate (%) | 7.9 | 8 | 8 | |
| Volatility (%) | 55 | 67.86 | 67.86 | |
