Sub: Testing of Domestic Passengers arriving at the Airports – Regarding

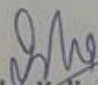

It has been decided that testing on random sampling basis for COVID 19 of domestic passengers coming by Air belonging to Punjab shall be done at the Airports itself. Thereafter, these people shall be allowed to go to their respective Homes. It shall be ensured that all Symptomatic passengers are mandatorily tested as per the protocol. However, asymptomatic passengers are tested on random sampling basis.

Proper record containing information like: Name, Address, Port of Departure, Mobile number should be maintained for all the passengers by the teams stationed at the Airports. All the passengers shall download COVA App.

Following protocol shall be followed:

1. If a person is tested as Positive, person shall be shifted to Government Isolation facility as per the Health protocol.
2. If a person is tested as Negative or is asymptomatic, person shall be in Home Quarantine for a period of 14 days. He will self-monitor his health status and shall report to nearest Government Health facility in case of development of any symptoms for COVID.

This letter has been issued with the approval of Competent Authority.

(Isha Kalia) IAS
